PROFESSIONAL SUMMARY

DevOps and Cloud Engineering enthusiast with hands-on experience in Linux, AWS, Docker, Kubernetes, Jenkins. Experienced in containerizing applications, deploying cloud-native workloads on Kubernetes, configuring Ingress, and automating infrastructure. Passionate about building scalable, reliable, and secure cloud solutions.

TECHNICAL SKILLS

Cloud: AWS (EC2, S3, IAM, VPC, RDS, Route 53)

Containers: Docker, Docker Compose, Kubernetes, NGINX Ingress, HPA

Automation: Jenkins, Terraform, Ansible

Scripting: Bash, YAML

Operating Systems: Linux (RHEL 9, Ubuntu)

Programming: Python, C++

Databases: MySQL, SQLite

Tools: Git, GitHub, VS Code

EXPERIENCE

GRRAS Solutions Pvt. Ltd.

May 2026 – Jul 2026

Certified Kubernetes Administrator (CKA) Intern

Hybrid

- Managed Kubernetes workloads using Deployments, Services, Ingress, ConfigMaps, Secrets, RBAC, and Persistent Volumes.
- Performed rolling updates, scaling, troubleshooting, and cluster administration.
- Worked extensively with Linux systems and Kubernetes operations.

TechForce Academy Australia

Jun 2025 – Aug 2025

Salesforce Programming Architect Intern

Remote

- Worked with Salesforce architecture, CRM concepts, and cloud-based enterprise applications.
- Assisted in application customization and data management.

PROJECTS

Cloud-Native Portfolio Deployment

Jul 2026

- Transformed a React portfolio into a cloud-native application using Docker and Kubernetes.
- Deployed on AWS EC2 using Deployments, Services, Ingress, ConfigMaps, Secrets, and HPA.
- Configured NGINX Ingress with a custom domain and published the Docker image to Docker Hub.

DevOps Full-Stack Application Deployment

Mar 2026

- Dockerized a full-stack application using Docker Compose.
- Configured multi-container networking and service orchestration.
- Reduced deployment time through containerized workflows.

LAMP Stack Deployment on AWS

Jan 2026

- Deployed a LAMP stack on AWS using EC2, RDS, IAM, Security Groups, and S3.
- Automated provisioning and configuration using Ansible.
- Implemented secure networking and cloud infrastructure best practices.

CERTIFICATIONS

- Red Hat Certified System Administrator (RHCSA)
- Oracle Fusion Cloud Applications ERP Certified Foundations Associate
- Docker for the Absolute Beginner – KodeKloud

EDUCATION

Arya College of Engineering & IT

Bachelor of Technology in Artificial Intelligence & Data Science

2023 – 2027

CGPA: 8.714
